Info

DevFests are local tech conferences hosted by Google Developer Groups (GDG) around the world. Each DevFest event is crafted by its local organizers to fit the needs and interests of its local developer community. Whether it be through hands-on learning experiences, technical talks delivered in local languages by experts, or by simply meeting fellow local developers, DevFest attendees learn how to build together and innovate on Google's developer tools

Google Developer Groups (GDGs) are local communities of developers interested in Google's developer technology; everything from the Android, Flutter, Chrome, AI, ML and Google Cloud platforms, to product APIs like the Cast API, Maps API, and YouTube API.

Become a Sponsor

To become a sponsor for our DevFest event or for any other questions, please contact sponsors@gdgmontreal.com with the desired sponsorship level.

Sponsors will be ordered by donation amount, on a first-come, first-served basis for promotional items.
